Education

University of Southern California, Viterbi School of Engineering — **Los Angeles, CA**
B.S. Computer Science and Engineering — *Expected December 2028*
Summer 2027 Availability: May 13 – August 22, 2027 (12+ weeks); open to extended co-op opportunities.

Norco College (RCCD) & Mt. San Antonio College — **Norco / Walnut, CA**
Completed 5 Associate Degrees — *August 2024 – June 2026*

- **Relevant Coursework:** Data Structures & Algorithms, Programming in C++, Assembly Language, Linear Algebra, Differential Equations, Calculus I–III

Technical Projects

Mini Clint – AI Agent for University Math Placement — **San Luis Obispo, CA**
Project Manager | Cal Poly AWS AI Summer Camp — *August 2025*

- Led a five-person team to 1st place among 15 teams, coordinating development of email, voice, chatbot, and guardrail components.
- Built a Python RAG email agent using Amazon S3, synthetic student records, and AWS SES to generate personalized placement guidance; sent 3 responses across 4 test inquiries.

USC Flavors – QR Attendance Management System — **Los Angeles, CA**
Software Developer — *2026 – Present*

- Built a QR-based check-in system for a 160-member student organization using Google Apps Script, Google Sheets, and a web interface, replacing a proposed $50/month service.
- Addressed concurrent-access delays with backend caching, lightweight status endpoints, and conditional polling to reduce unnecessary API requests.

Harangè Website (GirlsWhoML x Mozilla Festival) — **Remote**
Web Developer — *October 2025 – November 2025*

- Built the initial desktop frontend from Figma designs using Next.js, React, and Tailwind CSS for a Mozilla Festival installation.
- Created placeholder Mosaic of Voices gallery tiles so frontend work could continue while another team developed the backend integration.

Professional Experience

USC Viterbi School of Engineering — **Los Angeles, CA**
AI and Website Assistant (Student Worker) — *August 2026 – Present*

- Developed an HTML/CSS newsletter template from Figma designs; resolved font compatibility and dark-mode rendering issues through testing with Email on Acid.
- Maintain monthly newsletters and departmental website content using WordPress.

LearningNCo — **Seoul, South Korea**
Developer Intern (CIEE Internship) — *July 2026 – August 2026*

- Independently designed a 44-page vocabulary-app prototype covering learning workflows, pronunciation feedback, and student progress tracking.
- Co-authored a 71-page SS101 developer handoff covering 18 screens, feature logic, user flows, and proposed API/backend requirements.

Chinchilla AI Academy — **Remote**
AI Development Trainee — *September 2025 – October 2025*

- Built a working RAG-based physics study website using three textbooks, chapter navigation, practice questions, and an AI tutoring chatbot.
- Used Claude Code and MCP-based workflows during weekly technical mentorship and project reviews.

Leadership Experience

Association for Computing Machinery (ACM) — **Riverside, CA**
Vice President — *August 2025 – June 2026*

- Led a 500+ member student community, organized technical workshops, and secured $2,500 to send 15 students to Cal Hacks.

Technical Skills

Languages: Python, JavaScript, C++, Java, Assembly, HTML/CSS
AI & Cloud: RAG, MCP, AWS (S3, SES), Claude Code, Amazon Q
Web & Tools: Next.js, React, Tailwind CSS, Google Apps Script, Git, GitHub, Figma, WordPress, Email on Acid
